

There's a crux to everything
Not everybody's
Contemplating it
Only you unsatisfied
I wonder who is on this island with me

The connection is real
And I live for the rush
Let it out from inside me
Get it back to your heart

Get back to your heart
Only if you give it back again
Get back to your heart
Will you give it back?
You give it back

Something special's happening
You stop to think
It's all but over
Maybe head games aren't for free
And confidence
Ain't overbearing, no

Steady hand, not control
Let it be what it is
Let it out from inside you
Get it back to your heart

Get back to your heart
Only if you give it back again
Get back to your heart
But will you give it back?
Back, back, back

Get back to your heart
But only if you give it back again
Get back to your heart
Only if you give it back

Get back to your heart
Yeah, only if you give it back again
Get back to your heart
