

On And On

Djo

In my bed
On my phone
Locked away
Free to go
TV on
Every night
Scrolling on

On and on and on and on
Scrolling on and on and on
Feed the algorithm some
On and on and on and on

I saw the news
Watched a clip
Powered down
Then it hit
What is real?
What is fake?
It must be fake

On and on and on and on
Scrolling on and on and on
Feed the algorithm some
On and on
Wait

Your family is in our thoughts
Our heart goes out to you
Say a prayer, light a digital candle and then scroll away

Something is about to break
The fault line has been fractured
Maybe it's not too late
To learn how to love each other
What's it gonna take to change it?
Don't you wanna save this planet?
Blame it on manipulation, we're human after all

Something is about to break
The fault line has been fractured
Maybe it's not too late
To learn how to love each other
What's it gonna take to change it?
Don't you wanna save this planet?
Blame it on manipulation, we're human after all

I'm sick and tired of the same, old world reaction

It's just you and me now

In my phone
It's my world
I see the future sitting in my hand
Take a break
Go to bed
Mind is racing, baby, now I'm back

Baby, now I'm back

On and on and on and on

Scrolling on and on and on (Quit scrolling)

Feed the algorithm some

On and on and on and on (And it feels so good)

On and on and on and on (And it feels so right)

Scrolling on and on and on (To be up at night)

Feed the algorithm some (With you)

On and on and on and on

And on and on and on

And on and on and on
