Personal Lies

Djo

Lately I feel like I've been losing my mind
I'm acting funny, I keep refilling my wine
I failed to notice when I blew past my limit
And then I lied about it, said I didn't
I'm writing words that didn't come to my head
I'm pushing pennies in my paperback instead
When someone calls me I'm most likely to ignore, 'cause
Recall that limit that I missed before

She's moving faster now
Faster than sound itself
Yeah, she's got me slipping when I told her what was on my mind
That she's mysterious

I caught a current and I'm floating away
I feel it right behind my mama and my brain
Is that my tears or is it right behind my eyes?
Sooner or later, will I realize?
Fake aggravation is your way to be seen
You summon every single muscle on the team
You need attention, well baby there's a line
Signed sealed delivered, that's my overtime

She's moving faster now
Faster than sound itself
Yeah, she's got me slipping when I told her what is on my mind
That she's mysterious (Mysterious than all the lies)
She's moving faster now (She's moving faster now)
Faster than sound itself (Faster than sound itself)
Well, she's got me slipping when I don't know what is on my mind
That she's mysterious (Mysterious than all the lies)

(Do you care?)
(Do you care?)
(Do you care?)
(Do you care?)
Not at all (Do you care?)
Not at all
Not at all (Do you care?)
Not at all
Not at all (Do you care?)
Not at all
Not at all (Do you care?)
Not at all
Not at all (Do you care?)
You know I really don't care (Not at all)
I got the feeling right here (Not at all) (Do you care?)
You know I really don't care (Not at all, not at all) (Do you care?)
You know I really don't care (Not at all)
I got the feelings right here (Not at all) (Do you care?)
The safe way we appear (Not at all)
Oh baby that's all right (Not at all) (Do you care?)
You know I really don't care (Not at all)
I got the feelings right here (Not at all) (Do-)
