

Potion

Djo

When I wake up at three in the morning
Witching hour too strong
Like a witch I know, I need my potion
I, I, I might find love
I'm looking for it in an alphabet soup cup
I'm looking under my thumb (Under my thumb)
It's looking like a little rain cloud loves me
I, I, I

I'll try for all of my life
Just to find someone who leaves on the light for me
Leaves on the light for me (Oh, oh)

Mr. Magic and the trapdoor ladies big walk, no talk
Glitz and glamour doesn't age like wine does
I, I, I, I'm counting on love
When the book is in the final chapter
Man, it's always sad to go
Whatcha taking from the rightful lender?
I, I, I

I'll try for all of my life
Just to find someone who leaves on the light for me
Leaves on the light for me (Oh, oh)

I'll try for all of my life
Just to find someone who leaves on the light for me
Leaves on the light for me (Oh, oh)
