Love and hate decide
Money grows and dies
People never change
But I have to try
Try
Try
Try

Love and hate decide
Money grows and dies
People never change
But I have to try
Try
Try
Try

Love and hate decide
Money grows and dies
People never change
But I have to try
Try
Try

Love and hate decide
Money grows and dies
People never change
But I have to try
Try
Try
Try

Love and hate decide
Money grows and dies
People never change
But I have to try
Try
Try
Try

Take it on the chin
Never gonna win
Turn the other cheek and I take it on the chin, I
Take it on the chin
Never gonna win
Turn the other cheek and I take it on the chin, I
Take it on the chin
Never gonna win
Turn the other cheek and I take it, take it

Take it on the chin
Never gonna win
Turn the other cheek and I take it on the chin, I
Take it on the chin
Never gonna win
Turn the other cheek and I take it, take it

Take it on the chin

Never gonna win
Turn the other cheek and I take it on the chin, I
Take it on the chin

Love and hate subside
Money grows and dies
People never change
But I have to try (I think I have to try)
Try (I'm scared and I don't know why)
Try (You don't even know the first thing)

Those that try
Those that don't
Now you act surprised that you're alone
Dishonestly is honestly the mark that you must live with

Those that will
Those that won't
You're lying to yourself about control

Love and hate decide
Money, murder, lies
The future is the same
Why try?
Try
Try (Try, try, try, why try?)
