

Hello, Goodbye (Rollercoaster)

DKB

You got me going crazy, hate the way you make me feel
I'm left with all this pain
Ask me 'bout yesterday, I got nothin' to say
There's no going back
It's hello, goodbye, hello, goodbye
Hello, goodbye (I don't know why)
Baby, don't know why, I don't know why
I don't know why

Why do I keep on making the same mistakes?
I can't seem to find the brakes (So stupid)
Never again will I take to heart what you say
'Cause I'll just break apart again (Hell, nah)
It's funny I know I won't ever get to kiss her (Again)
But the roots grew and I'm stuck in the same zone (same zone)
No more circles, gotta fly away
No more games to play, you ain't my baby, yeah

Cycles of breakin' up and making up
Your faking's got me shaken up (You got me shaken up)
The thorns on the roses of your love keep grazing me
You got me messed up
Giving up on this love, I need something new
No more drama babe, no déjà vu
Been through it before, no more round twos
You've shown me I can't ever have you

You got me going crazy, hate the way you make me feel
I'm left with all this pain
Ask me 'bout yesterday, I got nothin' to say
There's no going back
It's hello, goodbye, hello, goodbye
Hello, goodbye (I don't know why)
Baby, don't know why, I don't know why
I don't know why

Hold up, I won't stay, not again (Oh, no)
Pains me to be thinking 'bout you
Won't keep on chasing your loving (Oh, yeah)
I'm finally closing the book
So now let's stop, rollercoaster ride (Coaster ride)
Oh my God
Let's stop, rollercoaster ride (Coaster ride)

Why're we even try to find time?
Between love and pain, you and I walk the fine line
You got me stuck in a bind, one day I call you mine, then you press rewind
Call me an ex, I don't know, what's next?
I can't stand it
Can't take all the baggage (Baggage)
It's too much for me to carry (Carry)
I'ma have to put it down now I'm through (Oh-oh, oh)

Come into my life, come and tell me lies
Then you say goodbye, never tell me why
Should we decide to stop tryin'
Can we move on? It's over

Babe, you know this ain't true love, we're stuck feeling numb
It's the real us, don't get it twisted
Pen to paper, I'm callin' now as the ending
Signing off the last page of this endless story

You got me going crazy, hate the way you make me feel
I'm left with all this pain
Ask me 'bout yesterday, I got nothin' to say
There's no going back
It's hello, goodbye, hello, goodbye
Hello, goodbye (I don't know why)
Baby, don't know why, I don't know why
I don't know why (I don't know why)
