

Everything you say and do you're just magic
Everything you say and do you're just magic
Everything you say and do you're just magic
Everything you say and do you're just magic

Rapture is coming up
Don't let it ever stop
Rapture is all your love
We can be forever

Rapture is coming up
Don't let it ever stop
Rapture is all on and on
We can be forever
We could be forever

Everything you say and do you're just magic
Everything you say and do you're just magic
Everything you say and do you're just magic
Everything you say and do you're just magic

Rapture is coming up
Don't let it ever stop
Rapture is all on and on
We can be forever
We could be forever

On and on, forever

We can be forever
