

Forever

DMA's

I was lost without a wing to carry on
How can I live without a cause
How can I bring you to the edge so close

You're always doubting the game
To be with you is the strangest thing I've known
And I'm turning like forever I guess
And I'm turning like forever my friend, don't you know
You're my friend, don't you know

How do we find love
Cause I'm losing track of time
Learning to survive forever tonight
How do we find love
Cause I'm losing piece of mind
Turning on our lights
Forever tonight

And all I want lost in a year of fearing love
How can I dream through all I've lost
Why can't I seem to be the man I was

You're always doubting the game
To be with you is the strangest thing I've known
And I'm turning like forever I guess
And I'm turning like forever

How do we find love
Cause I'm losing track of time
Learning to survive forever tonight
How do we find love, cause I'm losing piece of mind
Turning on our lights
Forever tonight

I made a mission to fight
My heart is over the line
And when our feelings are gone
And when the healing is done

I made a mission to fight
My heart is over the line
And when our feelings are gone
And when the healing is done

How do we find love
Cause I'm losing track of time
Learning to survive forever tonight
How do we find love, cause I'm losing piece of mind
Turning on our lights
Forever tonight
