

How Many Dreams?

DMA's

Got a mission to go
I feel you listening
On a mission you know
I hope you understand
I hope you understand
You're a vision

How many dreams to find out what you have lost?
How many years to find out what you must love? Yeah

Can we dance to the mess
I feel you listening in
Hand in hand with the best
I know you've got a plan
I know you've got a plan
You're a vision

How many dreams to find out what you have lost?
How many years to find out what you must love? Yeah
How many dreams to find out what you have lost?
How many years to find out what you must love? Yeah

Got me on the right wave
Got me on the right wave
Got me on the right wave
Got me on the right wave

I left you at the bar again

How many dreams to find out what you have lost?
Got me on the right wave
How many years to find out what you must love? Yeah
Got me on the right wave
How many dreams to find out what you have lost?
Got me on the right wave
How many years to find out what you must love? Yeah
