

I Don't Need To Hide

DMA's

It's our time honey yeah
And I know
What becomes when I think about you and I

It's our time honey yeah
And I know
What becomes when I think about you and I

These are not all the kind of things
These are not all the kind of dreams
In life, it's enough

These are not all the kind of worlds
I've been here but before the girl
In love, it's enough

I'm thinking bout a better time
I'm thinking bout a better way
Love
So I don't need to hide
I don't need to hide
I don't need to hide
Love
So I don't need to hide

It how you understand
What it means to become one
And lean into the light

It how you understand
What it means to become one
And lean into the light

These are not all the kind of things
These are not all the kind of dreams
In life, it's enough

These are not all the kind of worlds
I've been here but before the girl
In love, it's enough

I'm thinking bout a better time
I'm thinking bout a better way
Love
So I don't need to hide
I don't need to hide
I don't need to hide
Love
So I don't need to hide

Don't wait, too late, don't hide, this time
Oh
Don't wait, too late, don't hide, this time
Oh

I'm thinking bout a better time
I'm thinking bout a better way

Love
So I don't need to hide
I don't need to hide
I don't need to hide
Love
So I don't need to hide
