

These were the days that you tried to fade
It was the last thing you said to me
Lost in the ways that you tried to take
Made in the rain of our history

It's in my heart, it's in my head for you
It's in my heart, it's in my head for you

You know you want it, know you gonna let me out
Your pretty picture, taken in the morning now
Did I miss you? Burning in my eye
You going off the way, you going off the way

Lost in the ways that you tried to say
Made in the rain of our history

It's in my heart, it's in my head for you
It's in my heart, it's in my head for you

You know you want it, know you gonna let me out
Your pretty picture, taken in the morning now
Did I miss you? Burning in my eye
You going off the way, you going off the way
(Go away, go away)

It's in my heart, it's in my head for you
It's in my heart, it's in my head for you

You know you want it, know you gonna let me out
Your pretty picture, taken in the morning now
Did I miss you? Burning in my eye
You going off the way, you going off the way
