

# Round & Around

DMA's

You were there on a Sunday morning  
I was there for a midnight call  
Let me be the colors flowin'  
From your tide into us all

I wanna be connected  
I wanna feel the burn

Ride the wave the keeps you fallin'  
Ride the stream that let's you in  
Be the night, twilight's callin'  
Light the way, I'm following

I wanna be connected  
I wanna heal the Sunday pain

And I don't need to carry on  
I just need to work it out  
And I don't need to carry on  
I just need to work it out now  
You know it's so real, yeah  
'Round and around, and around now  
You know it's so real, yeah  
'Round and around, and around, and around

You were there on a Sunday morning  
I was there for the enemy more  
Let me be the one and only  
Let me be the one and all

I wanna be connected  
I wanna heal the Sunday pain

And I don't need to carry on  
I just need to work it out  
And I don't need to carry on  
I just need to work it out now  
You know it's so real, yeah  
'Round and around, and around now  
You know it's so real, yeah  
'Round and around, and around, and around

Letters from  
And there's nothing wrong  
Man, you're on your own  
You're somebody else right now  
Letters from  
And there's nothing wrong  
Man, you're on your own  
You're somebody else right now

And I don't need to carry on  
I just need to work it out  
And I don't need to carry on  
I just need to work it out now  
You know it's so real, yeah  
'Round and around, and around now

You know it's so real, yeah  
'Round and around, and around, and around  
'Round and around, and around, and around  
'Round and around, and around, and around
