

## Time & Money

DMA's

Stop me, hold on  
All in now, or you're on your own  
And I've been waiting  
For you, girl, now you're on your own  
And it goes, and it goes

Keep it coming  
I've got time and money for the next life  
But I'm here at night  
Keep it coming  
I've got time and money for the next life  
But I'm here at night

Stop me, hold back  
Sleeping out, and you're on your own  
Watch you, girl, lead for  
Seeking out as you hit the ground  
And it goes, and it goes

Keep it coming  
I've got time and money for the next life  
But I'm here at night  
Keep it coming  
I've got time and money for the next life  
But I'm here at night

Get up now, don't wanna hear this now  
You have been the one, you have been the one for me  
Light up now, don't wanna hear this now  
You have been the one, oh, they know  
Get up now, they know what I want  
They know what I want  
They know what I want  
Get up now, don't wanna hear this now  
You have been the one, you have been the one for me  
Light up now, don't wanna hear this now  
You have been the one, they know
