

Too Soon

DMA's

Take me to all your secrets
A place that's too close to you
Bury me with my toned soul it's under
Do you care when I'm there, do you notice, are you
Are you gonna wake up, are you gonna take it to me?
Are you gonna wake up, are you gonna take it to me?
Yeah

When you're on your own, do you break down?
Are you coming up too soon?
When you hit the ground, do you notice
Do you notice when I say
When you're on your own, do you break down?
Are you leaving me behind?
When you look toward, do you notice?
Do you notice when I say too soon?
Too soon...

Why'd you leave me lonely?
To wait on the likes of you
Steady me with your diamonds, find their number
Do you care when I'm there, do you notice, are you
Are you gonna wake up, are you gonna take it to me?
Are you gonna wake up, are you gonna take it to me?
Yeah

When you're on your own, do you break down?
Are you coming up too soon?
When you hit the ground, do you notice
Do you notice when I say
When you're on your own, do you break down?
Are you leaving me behind?
When you look toward, do you notice?
Do you notice when I say too soon?
Too soon
Too soon
Too soon
Too soon
Too soon
Too soon
Too soon
Too soon
Too soon
Too soon
