

Christmas Without You

DNCE

Well I don't want another Christmas with my back against the wall
Waiting up all night 'til daylight just hoping you would call
I don't want another Christmas without you

No I don't wanna put on the fireplace [?]
I don't wanna make a snowman if I'm making it on my own
And I don't wanna wait up for Santa 'cause I know what I would do
If I heard the those footsteps in my hallway all I wanna see is you
If you walked back into my life I don't know what I would do
I don't want another Christmas without you

No I'm not gonna light candle
I don't wanna dress a tree
I don't wanna celebrate the day that you walked out on me
No I don't want another Christmas without you

I don't wanna unwrap the presents put the stocking on my bed
I don't wanna see the mistletoe hanging above my head
And I don't want no consolation prize I won't take second [?]
Well the only thing I want is what I'm never gonna get
If you walked back into my life you would've make a dream come true
I don't want another Christmas without you

Christmas is coming and it won't be long
Hurry up cause everybody waiting for you time to come on home
Don't you know that it's not Christmas without you

Christmas is coming and it won't be long
Hurry up cause everybody waiting for you time to come on home
Don't you know that it's not Christmas without you

Well no I don't wanna hear the Christmas song that we both used to sing
And I don't wanna take a step back
No I don't want anything
I don't wanna unwrap the presents
I don't know what I should do
Cause when I think of Christmas, I remember losing you
And on those lonely winter nights I just want you by my side
I don't want another Christmas without you
