

Annabelle

Doc Walker

You and I gunna make a brand new start
Drag all we own out to the front yard
Make a big sign "Everything is free"
That's the last this town'll see of you and me

Hang on Annabelle
We gunna find ourselves down that long highway
Hang on Annabelle
We gunna ride like hell, down that long highway
It's a long highway
Got all our cash stashed in a coffee can
Sleep in the backseat of this old sedan
Just like a bullet screamin' down the road

Straight into the heart of the great unknown

Hang on Annabelle

We gunna find ourselves down that long highway
Hang on Annabelle
We gunna ride like hell, down that long highway
It's a long highway

[instrumental]

Hang on Annabelle
We gunna find ourselves down that long highway
Hang on Annabelle
We gunna ride like hell, down that long highway
It's a long highway
Such a long highway
