Raining On the Moon

Doc Walker

Have you heard the news? It's raining on the moon
The man in the TV said, "It's raining on the moon"
Even the scientists can't believe it's true
They're showing diagrams and little moon cartoons

Where we are is everything we know
All we've got is the love that we show

It was a man who knew that none of this was true
He swore by God above, the end was coming soon
Now there's a rocket bus, leaves every afternoon
And funny little cars racin' on the dunes

Where we are is everything we know
All we've got is the love that we show

Everyone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)

Everyone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)

Everyone aboard, it's raining on the moon
(What would you stay here for? It's raining on the moon)
Everyone aboard, it's raining on the moon
(No worries anymore, it's raining on the moon)
