

Sister Chardonnay

Doc Walker

I moved from the south side
Into a low income address
Far away from breezy bends
And all my so called friends

Every day at two pm
You walk right past my step
I smoke a cigarette
And the sun shines through your dress

I used to call you Caroline
But now you're more like a summer wine

Sister chardonnay you know you got me
Sister chardonnay you know you got me
If you'd only look my way you'd love me
Love me

I saw you running through the park
And something came to me
So I bought a dog and I don't like dogs
But I thought you might notice me

But now I'm back here on the step
And I've learned something new
I learned all about your life
And what you're going through

I wonder if your lover knows
The kind of woman he's letting go

Sister chardonnay you know you got me
Sister chardonnay you know you got me
The way you smile it drives me wild in my dreams
And if you'd only look my way you'd love me
Love me

I used to call you Caroline
Now you're more like a summer wine

Sister chardonnay you know you got me
Sister chardonnay you know you got me
The way you smile it drives me wild in my dreams
And if you'd only look my way you'd love me

Sister chardonnay you know you got me
Sister chardonnay you know you got me
The way you smile it drives me wild in my dreams
And if you'd only look my way you'd love me
