

## Happy Ending

**Dodgy**

You don't stand a chance and you never did  
Everyone's looking down on the kid  
No one wanted you and it hurt so bad  
How you gonna feel if you've never had?

Only you can make this a happy ending  
Only you can start and stop pretending  
That it's OK and it don't need mending  
Only you can make this a happy ending

You're pushing all the people who you ever loved  
You spilled your last drop of patience from above  
Leaving a stain on all of our hearts  
Now you've run out of all your false starts

Only you can make this a happy ending  
Only you can start and stop pretending  
That it's OK and it don't need mending  
Only you can make this a happy ending  
Only you can make this a happy ending  
Only you can start and stop pretending  
That it's OK and it don't need mending  
Only you can make this a happy ending
