

## Is This Goodbye

Dodgy

You say there's no future anymore  
All along you kept your feelings at bay  
This ain't what you've been looking for  
What's the point in living this way

All the trust was gone  
Tripped the switch and turned out the light  
For an ordinary guy  
Is this it, is this goodbye

You said you should move into town  
Probably best if I'm not around  
I'm not that good at shooting from the hip  
Do more damage and live to regret it

Seeing you everyday  
Does no good when I'm feeling this way  
Do you wonder why  
Is this it, is this goodbye

And seeing you everyday  
Does no good when I'm feeling this way  
Do you wonder why  
Is this it, is this goodbye
