

One Day

Dodgy

The day I was born was my mom's best day
She used to tell me that I'll be O.K
Now that I'm standing all on my own
I've gotta reach inside deep to face this world alone

She used to say you don't listen to reason
Believe in yourself, that's good keep believin'
Cause one day pretty soon we will all understand
One day soon we will know the truth

Your blessed with the truth
It drives you that's your proof

Tonight we will shine as brightly as stars
One day is now, so tomorrow is ours
We all understand we've now seen the truth
Look inside deep if you need some more proof

One day pretty soon we will all understand
One day soon we will know the truth

Your blessed with the fruits
It drives you that's your proof

I believe that one day we will know the truth
And one day we will see people town
Yeah yeah yeah
Yeah yeah yeah
