

## One Of Those Rivers

Dodgy

Let's not worry about, what we haven't got  
And let's not choose the life that will have a cost  
As long as you and I can live happily  
And surely all I want is staring back at me  
I'm so excited now that you agree  
That we're not perfect and I'm glad you see  
That living for today and whatever comes that way  
And when you're not around I'll just think of you  
And when I'm feeling down all that I can do  
Is wipe away my tears for you my dear

From the rooftops, I see houses,  
I see counties that board the sea  
In the distance, far in mountains,  
one of those rivers' calling me

Mist all around, now there's nothing to see  
And people from the pain had my life strode a me  
I'm leaving tomorrow for a good hotel  
One with a view where I can sleep well  
And when I'm lying down I'll just think of you  
And wipe away my tears for you my dear.

I'm trying to find the force to drives the flower  
I'm trying to stay in cause 'till my final hour  
Maybe we can all glance eternity  
But what do I care when there's you and me  
And when you're not around all that I can do  
And when I'm feeling down all that I can do  
Is wipe away my tears for you my dear
