

Satisfied

Dodgy

Guess I was satisfied, yes I was
Could think of nothing better to do with my life
Lying on the beach from dawn till dusk
Ain't nothing better to do with your life
Join our lives together then we will fly
Feel the sun inside my head and I'll smile
Guess I was satisfied, yes I was
Could think of nothing better to do with my time
I won't stop till I get back, to the place where I left
you
I want the feeling all the more
Join our lives together then we will fly
Feel the sun inside my head and I'll smile
Feel the sun inside my head and I'll smile

I never thought it could be so good
I never thought that it could be so good

Join our lives together then we will fly
And feel the sun inside my head and I'll smile
Feel the sun inside my head and I'll smile
And I'll smile
Won't you let me make my way through?
(The Summer Fayre is here and now...)

Won't you let me make my way through?

Won't you let me make my way through?
Won't you let me make my way through?
Won't you let me make my way through?
Won't you let me make my way through?
Won't you let me make my way through?
