

# Stand by Yourself

Dodgy

I used to think that everybody had someone else...  
We're all alone  
Addicted to the things I want 'cause you tell me  
That's what I should own  
I read the news, I read it to myself  
Light your fire  
La la la etc  
I know the games, I play them to myself

Stand by yourself, Stand by yourself, Stand by yourself  
Stand by yourself, Stand by yourself, Stand by yourself

I look out of my window and my reflection's all that I see  
I know the world is beautiful  
But I'm the focus of the world and it revolves around me  
I read the news, I read it to myself  
Light your fire  
La la la etc  
When will you learn that you can do anything that you really want?  
Light your fire  
La la la etc  
Stand by yourself, Stand by yourself, Stand by yourself  
Stand by yourself, Stand by yourself, Stand by yourself

Stand By Yourself, Stand By Yourself, Stand By Yourself  
Stand By Yourself, Stand By Yourself, Stand By Yourself
