

## We Try

Dodgy

I try so hard, so hard to please  
Just need a little sign in times like these  
We try so hard to make ends meet  
We need a little pride in times like these

Don't leave it too late, to let me know it's getting cold and I  
've gotta go  
Don't make me wait, you gotta show me which way to go  
To get outta this hole

She tries so hard, lost on the street  
Please throw her a line, she's in too deep  
I try so hard down on my knees  
Just give me a sign 'cause I'm in need

Don't leave it too late, to let me know it's getting cold and I  
've gotta go  
Don't make me wait, you gotta show me which way to go  
To get outta this hole

Swim against the tide, it's dragging me back  
To a place worse than before  
But all the time it's never enough  
To get us through no matter what we do  
No matter what we do  
No matter what we do

We try so hard, ooh  
We try so hard, ooh  
We try so hard, ooh  
We try so hard, ooh
