

Come warm your bones
Make yourself at home
Darling, smile, we are right as rain
Oh, we all need love, that simple love and we are whole again

In the still of the night by the desktop light
We can dream, a dream that never ends
Oh, we all need love, that sweet sweet love that makes us whole
again

Yes, I need you darling
Come what may (come what may)
You're the strength that gets me through the day (through the day)
Meet me at the old café
I'm on my way (on my way)
We're whole again (we're whole again)
We're whole again (we're whole again)
Yes, we are whole again
