

Far Away

dodie

Fly me away to town me
Population lacking, as you can see
Just a girl with a bow in her hair
Making her mistakes where no one can care
Cities are pretty but I'm pretty done
With this outside world when I'm not even in one
So watch me go, with empty hands, a refreshed mind and nothing
planned

I'm far away and worry free
Friends with the sun and the fish in the sea
Happy in my palm tree pad, it's the easiest day I've ever had
You can't tell me what to do
Maybe I'm just better off without any of you

Sure it's lonely on your own
But I'm so free now that I'm alone
No deadlines no worries no dates
No "Hello, I'm sorry but I'm running late"
Tell me are you tempted by the thought of a place
Where you stay for a day without a trace
So watch me go with empty hands, a refreshed mind and nothing p
lanned

I'm far away and worry free
Friends with the sun and the fish in the sea
Happy in my palm tree pad, it's the easiest day I've ever had
You can't tell me what to do
Maybe I'm just better off without any of you

Don't talk to me today
I'll be with the waves
