

Freckles And Constellations

dodie

Freckles, and constellations
All those cute conversations
The moon is bright, giving us light
I really wanna kiss you and I think I might
Filling up our imaginations

Starry eyes and galaxy minds
We'll be dancing on the clouds tonight
I'll be yours to keep just take a leap
Cause this spaceship has a passenger seat

Woah oh oh, I'm star struck
Woah oh oh, no gravity for us
We're intergalactic, with thoughts full of static
Woah oh oh, I'm star struck, for you

Midnight mumbles but I'm distracted
I like the way that you reacted
A lunar eclipse at our fingertips
Never had a moment that was quite like this
My crazy world has been impacted

Starry eyes and galaxy minds
We'll be dancing on the clouds tonight
I'll be yours to keep just take a leap
Cause this spaceship has a passenger seat

Woah oh oh, I'm star struck
Woah oh oh, no gravity for us
We're intergalactic, with thoughts full of static
Woah oh oh, I'm star struck, for you

We are so much more than space dust
A supernova couldn't break us

And we are so much more than space dust
A cosmic wonderland, of lust

Woah oh oh, I'm star struck
Woah oh oh, no gravity for us
We're intergalactic, with thoughts full of static
Woah oh oh, I'm star struck

Woah oh oh I'm star struck
Woah oh oh, no gravity for us
We're intergalactic
Thoughts full of static
Woah oh oh I'm star struck
For you
