

Help Myself

dodie

I'm bitten to shreds
I pick at the welts
I claw till I bleed
I never do help myself

I'll stare at the sun
And I won't go blind
But it'll sure hurt
When it sets for the last time

Don't tell me to stop
No, it doesn't work
You smack my hand
Trust me, I never learn

I'll scratch till I'm raw
I'll fuck him tonight
When it hurts so much more
You can say you were right
