

# I'M FINE!

dodie

My, what a mind that is mine  
And what is the world but a mind?  
Any moment carried by  
The panic in a rugby pile oh  
No one  
Is listening in

Who is in town? Oh it's... her  
Dream and awake start to blur  
Close your windows, bolt your doors  
Or you'll be doomed to ever more  
Be no one  
Just listening in

Big dad cries in the iCloud  
Roll it up  
Smoke it out  
One year left  
To figure it out  
Big brave girl - 29 now  
I'm fine now, really I'm fine now -  
I'm fine!

Sound the alarm - I am bored  
Too many friends to ignore  
I'm chewing up a gummy again  
To overthink and tail spin  
For no one, I'm listening in...

Big stop sign in the mind now  
Roll it up  
Smoke it out  
One year left  
To figure it out  
Big brave girl - 29 now  
I'm fine now, really I'm fine now -  
I'm fine!

Wake up, a mistake but no really I'm, really I'm  
Sink in to the feeling oh really I'm, really I'm  
Listen from a distance - no really I'm, really I'm  
Do you understand me? God really I'm, really I'm, really I'm...
