let go

dodie

Sat by the phone like a fool
I made a list of reasons why I shouldn't love you
'Cause I wait and then it's dark again

So I care and you don't care
Hey, did you hear that?
No, he don't care like you do

Oh what a space in the bed
Ignoring the danger just to feel you in my head
Comfort and pain
No, it's not, quite the same

'Cause I care and you don't care
Hey, did you hear that?
No, he don't care like you do

Let go
Everything's telling you to let go
I think it's time now to let go
Remember your training and just let go

There is a night I return to
I would've sworn on it you loved me like I loved you
Wasted another day still hoping that you say that

I care but you don't care
Hey, did you hear that?
No, he don't care like you do

Let go
Everything's telling you to let go
Remember your training and just let go, let go

I think it's time now to let go
It's time now to let go
