

one last time

dodie

One last time, please
Like you're mine, again
Just for a moment
Can we pretend
That nothing's changed at all

Just one last time please
We can say goodbye again
Just for a moment
Say it's not the end
Will you see me like you did before

Just one night more
And then I'll close the door
Somehow step into
A world without you

But one last time please
I know it's said and done
I'll take a night with you
And we can rise with the sun
But till then
Please be mine
One time again
