

Against Me

Doe Boy

Young nigga what you gon' do when they ain't with you
I don't trust nobody just me and my pistol
I've got some niggas that are knocked in the system
Got to take time, tell 'em I miss 'em
For these niggas don't know what I've done been through
Middle finger when they're all against you
Got all of these niggas against me
Streets gettin' jealous they keep tryin'a trick me
Got all these haters in my city, niggas gon' make me squeeze until it's empty
So it's fuck you to whoever ain't with me, shoot whoever that's ridin' against me
For all these niggas don't know what I've been through
Middle finger when they're all against you
Got all these niggas against me
Dealin' with all of this hate in my city
