Doe Boy

Woah

All honesty, all honesty

Doe Beezy!

In all honesty, all honesty  
I don't stress you 'cause I feel you not honest with me  
I can't let you fuck with who I'm tryna be  
I'm so solid so that fuck shit not flying with me  
Ain't no point of faking, no you ain't dying for me  
Don't need no body, bitch my gun on the side of me  
Ain't gon' slide on my opps, then you don't rock with me  
If I don't see no body drop then you not slime to me  
Oh no, no, no

Back when I was broke, you ain't plot with me  
You ain't ever come and score no spot with me  
That nigga you think lit, he a flock to me  
You think that IG hoe bad but she a thot to me  
Spinning myself in [?], no bike  
Y'all niggas pussies, you ain't got no bodies  
She's so bad I just wanna lick her whole body  
I fuck her for hours when I'm [?] body, yeah  
Durk, that's my blood brother, know I'm a thug for him  
King of my city took me to my house, I grabbed my gun for him  
He not no rapper, swear that's why I got so much love for him  
You can't say this bought to many, you play, I'mma bust for him  
I'm thinking of all the drugs, try 'em, I'll give him slugs  
So much respect for Thug, he showed me so much love  
That nigga a pussy, guaranteed, not with us  
If minivans ain't pop, probably be somewhere robbing plugs  
They was tryna count me out, still ain't pull no stunts for clout  
I ain't no fuck nigga, being real got me out  
9 times out of 10 they hating my name in somebody's mouth  
But me [?], I highly doubt

Oh, all honesty, all honesty  
Bro was slipping on me, it's finally time for him to see  
I know somebody robbed me somewhere applauding on me  
But he know better 'cause he know I got that Glock with me  
No cap

Hate me for no reason, say you're real, don't know the meaning  
One of my opps killed me last night when I was dreaming  
Shawty think I'm tripping, can't stay still when I'm sleeping  
You signed up for this when you chose a demon, oh  
I ain't gotta speak on Future, y'all know what's up with us  
Play with him, you got no future, you know what is up with us  
You showed me the light, you showed me the millions that stuck with us  
Freebands Gang 'til the grave, they mad they can't run with us  
Can't keep everybody happy, God sure ain't tryna please me  
'Cause honestly, I really don't need him  
Me and NoCap share so many secrets  
If I stayed, I probably would've died in Cleveland

In all honesty, all honesty  
I don't stress you 'cause I feel you not honest with me  
I can't let you fuck with who I'm tryna be

I'm so solid so that fuck shit not flying with me  
Ain't no point of faking, no you ain't dying for me  
Don't need no body, bitch my gun on the side of me  
Ain't gon' slide on my opps, then you don't rock with me  
If I don't see no body drop then you not slime to me  
Oh no, no, no

All honesty, all honesty
