

Life Goes On

Doe Boy

Ayy, ayy, ayy, ayy, ayy, that's probably Tago
LC, LC, LC

Yeah, my heart cold, but it's covered in a Moncler
I don't call your phone, when I needed, you was not there
Say I switched up on you, hold up, stop there
When I love you, show and go and notice, make you not care
Fakin' like you love me, probably really don't like me
You couldn't walk a mile in these Gucci's, stick to them Nike's
We was wildin', we was thuggin', it no longer excite me
City scared of us, they throw somethin', don't wanna invite me
Rock designer head to toe, bitch, I'm just tryna fix my image up
I been tryna turn my savage down and turn my business up
I don't slide in mini vans no more, I ride in Bentley truck
But just know I start drinkin' that Patrón, I just might send it up
I been tryna boss up in any way possible
They wonder if it's possible, is there any way to stop 'em?
Probably knock his head like that, he keep the Glock with him
He paranoid, he ready, won't go easy, you might die with him

So leave me alone (Leave me alone)
Stay up in yo' lane and we can both go home (Both go home)
Ain't trippin' 'bout a loss, nigga, life goes on (Life goes on)
Life goes on, nigga, life goes on (Life goes on)
I done lost it all, went to jail, came and got it back
Streets gave me a contract, knew what I was doin' when I signed that
Life goes on, can't get no time back
Life goes on, I realized that

Life goes on, gotta bounce back
Life goes on, put your money where your mouth at
Sick of wakin' up at drama, tryna wake up calmed at
Done with all these fake vibes, don't wanna be 'round that
I don't take shit lightly, pay attention what he said
Really wanna speak his mind, but he scared to say it
'Less you cross that line and I'ma treat you like you dead
Ain't scared to lose no ho, I seen my nigga lose his head
Life goes on, when you feel like givin' up, hold on
Could just hold on
Feel the pain, one day, you won't feel it no more

So leave me alone (Leave me alone)
Stay up in yo' lane and we can both go home (Both go home)
Ain't trippin' 'bout a loss, nigga, life goes on (Life goes on)
Life goes on, nigga, life goes on (Life goes on)
I done lost it all, went to jail, came and got it back
Streets gave me a contract, knew what I was doin' when I signed that
Life goes on, can't get no time back
Life goes on, I realized that

Life goes on, can't get no time back
Life goes on, I realized that
