

Covered in Blood

Dog Fashion Disco

Locust plague malevolent apparition
You can't touch me
From a shallow grave I rise like Lazarus
You can't kill me

Destroyer
Shadow your mind
Death means a life relentless
Haunting
Black cancerous
Tortured and tormented soul

Demonic
Invading the heart
Pumping blasphemous bile

Covet
All earthly pleasures
Only the deserving will die

Covered in blood
The end has just begun
Covered in blood
Sacrifice your only son

Covered in blood
The end has just begun
Covered in blood
Sacrifice the chosen one

I am what I've done until I am dead
Severed the bloodline and spine from the head

Fall from divine
Your blood into wine
False witness deceiver

Malice inflicted
Disease runs wild
Feeding on your brain

Covet all earthly pleasures
Only the deserving will die

Destroyer
Shadow your mind
Death means a life relentless
Haunting
Black cancerous
Tortured and tormented soul

Covered in blood
The end has just begun
Covered in blood
Sacrifice your only son

Covered in blood

The end has just begun
Covered in blood
Sacrifice the chosen one

Rear back in murderous orgasmic spasms
Right in the moment of sadistic chasm

Nightmares created
Dripping down my tongue
Martyrs Created
Covered in their blood

Die by the sword
All is fair in love and war
Bring down the sword
All is fair in love and war

Covered in blood
The end has just begun
Covered in blood
Sacrifice your only son

Covered in blood
The end has just begun
Covered in blood
Sacrifice the chosen one
