

# Scarlet Fever

Dog Fashion Disco

Now sterilized  
We're lily white  
With no evidence  
We eat our own  
So glutinous  
Turn to their young  
To satiate  
They eat their own

Come out, come out  
Wherever you are  
Come out and play  
Wherever you are

Rose buds bloom all over you  
Reptilian skin to scales  
You stoke the fire without mercy  
The fragile betray the frail

Foul is our home  
Our den not solemn  
Hunger pangs  
I take you in  
Come out and play  
Wherever you are

Possess the masses  
With your snake charm smile  
Now our fever is rising high  
Overdosed under your spell  
I feel your grip  
I know it well

Scarlet fever rising high  
Scarlet fever rising high

Come out, come out  
Wherever you are  
Come out and play  
Wherever you are

Foul is our home  
Our den not solemn  
Hunger pangs and jaundice skin  
Come out and play  
Wherever you are

Now overdosed  
Under your spell  
I feel your grip  
I know it well
