

## One Down

### Dog Slaughter Beach

I put one down  
I walk around  
I play the game  
I go out and live it up  
I dress up nice  
I feel alright  
I get loaded  
And I come home late at night

We drive around  
Our old hometown  
They lit that football field  
On fire in '99  
The trees are bare  
I breathe the air  
I hold it down real deep  
Before I let it out

I live upstairs  
I wash my hair  
I take my meals alone  
Inside the parlor room  
I win the war  
I feed the poor  
I get anxious  
And I curl up on the floor

I saw the star  
I walked real far  
I found the baby  
And I gave him what I got  
You pet my head, put me to bed  
A hundred million years  
Lit up and turned to dust
