

All Mine

Doja Cat

Wanting what we want
Claiming what we claim
Make you say my name
And I'm all yours
It can't be my fault
This street goes both ways
Let a giver take
You're all mine, boy

Callin' shots just like the boss lady you love
You need something strong enough
You need someone truly tough
See through the wire, hand gripping on the clutch
I'm about to bust through and take what's deserved

I ain't waiting around, yeah
I be takin' him out, yeah
'Cause I'm only about him

Wanting what we want
Claiming what we claim
Make you say my name
And I'm all yours
It can't be my fault
This street goes both ways
Let a giver take
You're all mine, boy

I see, I saw, I peeped
I'm not afraid of a leap, a jump
Got faith, I saw a vision of we and us
You make some really good company
I want to take it to the next level

You wanna mix? Jump in, let me assist
Best believe he'll be crackin' it before GTA 6
He ain't hungry for money, I told him come eat the rich
Pick me up in the Panther and drop me off at the Ritz
Carlton how they follow him, but I'm fresh with my Prince
Sit calm inside my crib, I got game and I got chips
Bananas for my clip, he want me and I want him
If you believe in manifestation, this make perfect sense
Because I do the things these bitches think of but they don't, don't, don't,
don't, do
If I dream, if I think big, I can go, go, go, go, go, no fantasy
I'll be his queen, and we'll live so, so, so, so, so, happily ever after
Want what I want, want, want, want, want, want, hey

Wanting what we want
Claiming what we claim
Make you say my name
And I'm all yours
It can't be my fault
This street goes both ways
Let a giver take
You're all mine, boy

I see, I saw, I peeped
I'm not afraid of a leap, a jump
Got faith, I saw a vision of we and us
You make some really good company
I want to take it to the next level
