Doja Cat

Pop open this, this magic pink capsule  
I'm in heaven, just throw me one, I'm full  
I haven't slept, I never eat, I'm full  
Eyes wide open, I cannot sleep, I'm dull

This will make you feel better  
This will make you feel better  
This could be the antidote or gateway drug  
Either way baby you know it's temporary fun  
And you don't have to sip none from the cup  
Lick it up (tender, tender)  
Tender to the touch  
She still frequent fender benders  
Now she slender in the butt  
Chop it up more, baby  
Chop it up
