

## Bitter Regret

Dokken

Darlin' -don't let me go  
until the last train rides  
I wanna stay with you  
when the morning comes  
and it's time to rise  
but I can't lift my head - baby let me die  
release the sorrow - deep within my eyes  
life's only borrowed

Don't build your world with bitter regret  
'cause I still feel it's not over yet  
what we've done we'll have to forget  
or all you'll reap is bitter regret

Wonderin' -how this came to pass  
why my future runs through the hourglass  
talk to me - 'cause I can't lift my head  
anti-social suicide lyin' on my bed  
release the sorrow - deep within my eyes  
life's only borrowed

'Cause I still feel it's not over yet  
what we've done you'll have to forget  
or all we'll reap is bitter regret

(Talkin' to my friend misfortune  
take me for a ride  
how I wish that I could only  
give you back your life again)

Darlin' - I wanna stay with you  
'till the morning comes  
and that last train rides
