

Broken Heart

Dokken

Something's going on
The shattered edge of night, it calls to me
Calls me
That my love, she's gone away
Away
Far away from here
Yes, she's gone
And all I've got is this broken heart
And all I've got is this broken heart
Broken heart

She can't hear my cries
Far away, she can't see my tears
Oh no
Far away from here, she's gone
She's gone
Away
Never to return
Yes, it's true, and all I've got is this broken heart
All I've got is this broken heart
Broken heart
Broken heart

Far across the sea
Back to distant lands where she comes from
They say she was just a dream, a dream I know
I know
But I love her still
Yes, she's gone, she's gone
And left me here with this broken heart
Left me here with this broken heart
All I've got is this broken heart
All I've got is this broken heart
