

# Don't Close Your Eyes

Dokken

Somebody's watching me, is it just a crazy dream  
Is it my memory, playing tricks on me  
Out in the streets in the heat of the city  
Here comes the night  
Sky's turning grey and black  
You knew that you were right

Don't close your eyes  
Don't close your eyes or I'll be there  
Don't close your eyes  
Don't close your eyes or I'll be there

Just a shadow in the dark, you've seen this face before  
Is it just a fantasy, is he coming back for more  
Out in the alleyways, there is no second chance  
Moving up behind you, you've lost the game at last

Don't close your eyes  
Don't close your eyes or I'll be there  
Don't close your eyes  
Don't close your eyes or I'll be there

Somebody's watching me, is it just a crazy dream  
Is it my memory, playing tricks on me  
Out in the alleyways, there is no second chance  
Moving up behind you, you've lost the game at last

Don't close your eyes
