How I Miss Your Smile

Dokken

Thinkin' 'bout the days spent with you
All The Things that we used to do
Memories of simple things revolve around you
Visions in my mind keep coming through
I Wasn't you and i've known for awhile

How I Miss Your Smile

Funny how this all came to be Miscommunication it seems Looking back I realize the truth I wish that i had listened to you

It' the simple things that change in our lives Maybe someday I'll get it right

How I miss your smile

This foolish heart is broken there's no cure And this lonliness is all that I have WE san't take it back the words that we said Without regrets

Baby I admit that I lied
No Excuse for makin' you cry
I keep starin' at your picture every day
Please forgive me is all I have to say
How I miss your smile
