

# Over The Mountain

Dokken

I've tried to find  
Some peace of mind  
I've been searching for so long  
I've been looking in my soul  
Which way to go. I don't know  
In a desert full of dreams  
I've been wondering so it seems  
I've been trying to get

Over the mountains to better days  
So hard to climb, but I'll find my way  
Each step I take brings a better day  
Get to the top so I can see

It seemed I was sailing on an ocean blue  
No end in sight. Only an empty moon  
I've traveled so far  
The sun was rising  
On the horizon

Over the mountains to better days  
So hard to climb, but I'll find my way  
Each step I take brings a better day  
Get to the top so I can see

Over the mountains to better days  
So hard to climb, but I'll find my way  
Each step I take brings a better day  
Get to the top so I can see

So I can see  
Get to the top so I can see
