

Saving Grace

Dokken

I've been drowning in my soul
I've been swimming in my fear
The world has got me upside down
There's no way back this time around

Destiny won't you be my friend
Take me to that place that never ends

Saving grace
Guess I left it in that other place
Saving grace
Now there's only sorrow, no more saving grace

Now I'm drowning in my blood
In an ocean full of lies
The one that found his happiness
Lives beneath the tree of life

Destiny won't you be my friend
Take me from that place that never ends

Saving grace
Guess I left it in that other place
Saving grace
Now there's only sorrow, no more saving grace

Now I'm drowning in my blood
In an ocean full of lies
The one that found his happiness
Lives beneath the tree of life

Saving grace
Guess I left it in that other place
Saving grace
Now there's no tomorrow, no more saving grace
