You Take My Breath Away

Dollar

Funny faces look at the way that we live
We're on prime time
Going places you're just so good to be with
Huh you're a major sensation
Don't hand around we gotta live it while we can
And you set the style and when I see you smile
I don't believe you do what you do

Cause you take my breath away
We gotta live every day now
You take my breath away want to say
It doesn't happen everyday someone like you
Should be there to help me through
Oh you take my breath away

Strange sensations feel like I'm floating on air
Like the sunshine
Good vibrations follow you round everywhere
You know you're walking a fine line
Don't hang around we gotta live it while we can
And you set the style and when I see you smile
I don't believe you do what you do

It doesn't happen everyday someone like you
Should be there to help me through
Why don't you admit how you take my breath away
We gotta live everyday now

You (you) take my breath away
We gotta live everyday now
You take my breath away
We gotta live everyday now
