

## Down

Dolly Parton

Spent all my money on everyone else  
Why I just kept handing it out right and left  
They didn't appreciate none of my help  
I have found  
Had me a man  
I was so much in love  
But he just walked off after using me up  
I cried like a baby  
It hurt me so much and Im down  
Yeah, Im sure down

I know that Im down but Im gonna get up  
I just need some time  
Just need a little streak of good luck  
And you know that it's rough when your bitting the dust like I  
am  
You try to do right but tell me where does that get you  
People just use you and then they forget you  
Well it wont take me long  
To get my feet back on solid ground  
But now Im down

When I get my life back in order again  
Well I'll still be willing to help out my friends  
And if you need some body or wished it had been, look around  
Ill be spending my money on everyone else  
Well I'll just be handing it out right and left  
Ill find a new love I wont live by myself  
Im just down, now, yeah Im down

I know that Im down but Im gonna get up  
I just need some time  
Just need a little streak of good luck  
And you know that it's rough when your bitting the dust like I  
am  
You try to do right but tell me where does that get you  
People just use you and then they forget you  
Well it wont take me long  
To get my feet back on solid ground  
But now Im down

I know that Im down  
But Im bound to get up
