

Good Time

Dolly Parton

Did somebody say good time?
Well, I know a place where you can have it!
Up where the homeboys run like rabbits
Revenueers try to shut 'em down
But that still's still on the hill
Where you buy you a jug of thrills
So grab you a jar of juice and head to town!

Good time, talk about a good time
We're gonna unwind, so let 'er go!
Good time, talk about a good time
Ain't it about time? So let 'er roll!

Some say moonshine, some white lightnin'
Some corn liquor, all the same
Home brew, mountain dew, whiskey's whiskey!
Called by any other name
You'll be dancin' 'fore you know it!
Take a little swig and hit the floor
Talk about about a good time, we're gonna be fine
Lotta good times left in store

Good time, talk about a good time
We're gonna unwind, so let 'er go!
Good time, talk about a good time
Ain't it about time? So let 'er roll!

So swing your partner 'round and around
Pick 'em up and lay 'em down
Cow's in the barn and the dog's on the porch
Pass that little brown jug once more, good time
The work's all done, and the clothes on the line
We deserve to have a good time
A little bit of fun ain't gonna hurt none
Just have a little fun, good time!
Let's have us a good time

Good time, talk about a good time
We're gonna unwind, so let 'er go!
Good time, talk about a good time
Ain't it about time? So let 'er roll!

Talk about a good time!
Let 'er roll!
