

## He Left Me Love

Dolly Parton

He left me love enough to last a lifetime a lifetime filled with  
loving memories  
And so I have no reason to search for new love time could never  
take his love from me  
And my mind is filled with memories sweet and tender  
My heart is filled with love he left for me  
And each thought of him just makes the love grow sweeter  
He left me love to last eternally  
I just close my eyes and I still see him  
And in dreams he loves me just like he used to do  
Even wakes me with a tender kiss every morning  
A kiss that lingers on my lips the whole day through  
And my mind is filled...  
Oh yes he left me love
